

Arfa Khan

Software Developer

Princeton, NJ 08540 | (949) 992-6059

m.khanarfaa@gmail.com | www.linkedin.com/in/arfa-khan1

SUMMARY

Software Developer with 6+ years of experience building responsive web applications with JavaScript, React, Node.js, and RESTful APIs. Experienced with relational and non-relational databases (MySQL, MongoDB), Git, and CI/CD with GitHub Actions. Strong background in front-end performance optimization, dashboards, data visualization, and testing, and a collaborative team member in Agile environments.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL, Python, PHP

Frontend: React.js, Redux, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Laravel, WebSockets

Databases: MySQL (relational), MongoDB (non-relational / NoSQL)

DevOps: Git, GitHub, CI/CD (GitHub Actions)

Tools: Visual Studio Code, Postman, Power BI

Currently Learning: AWS (Lambda, S3, DynamoDB)

Practices: Agile, Code Reviews, Testing, Performance Optimization, Technical Documentation

WORK EXPERIENCE

Software Developer (Contract)

Matsing Technology, Remote | 2025

- Designed and developed a product support portal from the ground up, with separate admin and client dashboards that streamlined data access and improved user experience.
- Built a client-facing data dashboard with organized, at-a-glance visualizations and time-based filters (daily, weekly, monthly), giving users quick access to key information.
- Led a UI/UX modernization of a critical internal dashboard, improving user navigation efficiency by 70% through a fixed-header layout, responsive design, and reusable components.
- Developed and debugged core front-end features, including advanced search filters, dynamic pagination, and formatted data export, and resolved 15+ critical UI bugs.
- Migrated data between code branches with 100% accuracy in column names, data types, and automated workflows, maintaining data integrity across environments.
- Refactored legacy JavaScript into clean, maintainable code by removing redundancy and console errors and creating new reusable UI components.
- Managed the development workflow with Git, publishing feature branches, collaborating through pull requests, and supporting code reviews and deployments.

Software Developer

A #1 Air, Lewisville, TX | 2022 – 2024

- Developed a customer service platform using Laravel and MySQL, with features for complaint management, query resolution, and dispatch tracking through optimized routing.
- Built a real-time, event-driven chat application using WebSockets and a Laravel backend, reducing customer service response time by 40%.
- Improved application performance by 30% through JavaScript and CSS optimization, resulting in faster page load

times and a better user experience.

- Designed and implemented relational database schemas in MySQL, building efficient CRUD operations and reliable data management.

Junior Developer

Alpha AI Solutions, McKinney, TX | 2019 – 2022

- Reduced page load times by an average of 40% by optimizing HTML, JavaScript, and CSS.
- Contributed to 5+ major feature releases in an Agile team, participating in code reviews and maintaining technical documentation.
- Performed thorough testing of new features, reducing post-deployment bug reports by 15%.
- Reduced user-reported UI issues by 25% by applying design thinking to build intuitive, user-focused interfaces.
- Resolved front-end performance bottlenecks, improving application efficiency and runtime by 20%.

QA Tester / Analyst

Mushko Electronics, Karachi, Pakistan | 2018 – 2019

- Tested customer portal features, including login, payments, and account management.
- Created and executed test cases, using QTP for front-end testing and SQL for back-end testing.
- Reported bugs and worked with developers to resolve issues.

EDUCATION

Bachelor of Science in Computer Science

Sir Syed University of Engineering and Technology, Pakistan | 2016

PROJECTS

- MERN Stack Project (MongoDB, Express.js, React, Node.js)
- Interview AI Project
- Uber Clone
- E-Commerce Grocery Template
- Power BI Dashboard
- Personal Profile Website
