SUMMARY

A dedicated software development professional with a proven track record in creating scalable and maintainable systems, including web applications and full-stack solutions. Proficient in PHP development, specializing in creating, testing, and maintaining web applications. Skilled in Laravel and MySQL, with a strong background in integrating back-end logic with front-end elements with agile methodology. Proficient in implementing security best practices and optimizing code performance. Known for effective collaboration with cross-functional teams and delivering scalable solutions.

TECHNICAL SKILLS

• PHP • JavaScript • Laravel • • MySQL • jQuery • React.js • Node.js • AWS • HTML • CSS • Bootstrap • Tailwind • GitHub • Power BI

EXPERIENCE

A #1 AIR

Software Developer

Lewisville, Texas

2022-2024

- Designed and developed websites, using HTML, CSS, and JavaScript and incorporating frameworks like jQuery and Vue.js; integrated with PHP Laravel for server-side functionality and utilized Ajax for asynchronous data handling.
- Improved code efficiency by 30% by using JavaScript and CSS, resulting in faster page loads and enhanced user experience.
- Developed a chat application using WebSockets for communication, significantly improving user interactions.
- Worked with cross-functional teams to gather and refine user feedback, implementing Agile methods for continuous product improvements, ensuring user satisfaction, and developing APIs for seamless third-party service integration.
- Coded software updates and modifications based on detailed design specifications.
- Conducted peer code reviews to ensure high-quality code.
- Designed and managed MySQL databases, optimizing queries for improved efficiency.
- Integrated back-end logic with front-end elements using Laravel, JavaScript, and jQuery.
- Conducted testing, debugging, and optimization of code, ensuring high performance and reliability.
- Developed an authentication system using React.js, including user login, registration providing insights for future project adaptations.

ALPHA AI SOLUTIONS
Junior Developer

McKinney, Texas
2020-2022

- Optimized web pages for faster loading speeds by adjusting HTML, JavaScript, and CSS, resulting in a 40% decrease in load times.
- Enhanced the company's point of sales system, improving transaction efficiency by 25%.
- Developed a customer resolution management tool, using Vue.js and JavaScript.
- Collaborated with teams to integrate new features, conducted code reviews, and maintained documentation.
- Implemented testing strategy to ensure reliability and performance of newly developed features.
- Designed and developed user interfaces that enhanced user experience and simplified interactions between users and back-end systems.
- Mentored junior developers, enhancing their skills and improving code quality through targeted feedback and best practices.
- Applied data-driven approaches to optimize business processes and support project goals.

MUSHKO ELECTRONICS
QA Tester, Analyst

Karachi, Pakistan
2018-2019

- Tested web-based applications for online customer portals requiring secure login, viewing current and past bills, handling and processing payments, usage consumption history and maintaining account information.
- Designed and developed test scenarios and test procedures based on test requirements.
- Prepared and planned test data and test cases and executed with test scripts.
- Conducted front-end testing by using QTP and back-end testing by using SQL queries to access databases.
- Performed functional and regression testing for each build version.
- Collected and reported bugs and errors during the testing phase; compiled and sent reports to developers.

UNITY ANALYTICS
Power BI Analyst

Karachi, Pakistan
2015-2017

- Developed various Microsoft Power BI dashboards used for analysis and decision-making.
- Collected and analyzed data from CMDB and Excel, transforming it to generate reports, using Power BI.
- Worked with high-performance data integration solutions, connecting multiple data sources for extracting, transforming, and loading into pre-designed data warehouses.
- Optimized and revamped dashboards, using best practices; increased operational efficiency by 30% and user engagement by 20% through improved interactive visualization.
- Collaborated with cross-functional teams to ensure seamless integration of BI solutions into existing workflows, facilitating better communication and data-driven decision-making across departments.

EDUCATION

SIR SYED UNIVERSITY OF ENGINEERING AND TECHNOLOGY, Karachi, Pakistan
Bachelor of Science, Computer Science, 2015
